

Umbilically App allows you as a parent to have insight into your child's day at Crèche. Download from App or Play Store onto your Android or IOS.

### **Diary**

This is your child's digital diary. Your child's teacher will complete it on daily basis and you as a parent will get an immediate 'Push notification' on your phone once it has been completed.

### **Parent / Teacher Chat**

This is a live chat between you and your child's teacher. No more worries, simply pickup your phone and chat to your child's Crèche teacher using your Umbilically™ App.

### **Schedules & Events - Daily Schedule**

Here you can see the different activities that your child is doing throughout the day and what they are busy doing right now. Always be in the loop with your child's daily activities.

### **Schedules & Events – Meals Plan**

Know what's for lunch with a daily meals plan. The daily meals plan will tell you how to best balance your child's nutrition by telling you what they ate at school together with your child's digital diary that will inform you if they have in fact completed their meal.

### **Schedules & Events – Events**

No more worries about remembering all those important school activities! Umbilically is the easy way to keep track of the important school events. Umbilically™ will also notify you of the upcoming Crèche events to make sure you are on top of things.

### **Photos**

A live photo feed from your child's Crèche directly to your phone!

## **Pickup**

Ever had your child collected by a relative or a friend and had to notify your Crèche of this? Or perhaps you are concerned that your child will be picked up from Crèche by a stranger? After all these things happen all the time... Not with Umbilically™. Your class teacher will only release your child to someone other than you (the parent) if you have specified that persons details in the app.

## **Medicine**

Is your child still recovering from an illness or perhaps has a condition that requires timely administration of medication? Umbilically™ takes care of that by notifying the teacher of the time and dosage that your child's medication needs to be administered. More peace of mind for you. Here is to your child's health!

## **Absenteeism Tracker**

Notify your Crèche teacher if your child is going to be absent from Crèche at a convenience of a click. Teachers will also perform a roll-call daily and mark on the App if your child is absent.

## **Newsletter**

Your Crèche's weekly newsletter section. Catch up with what's happening at your child's Crèche and all the latest news and event anywhere & anytime.

## **Child Profile**

Your entire child's emergency information is stored on your child's profile. Including emergency contact information and possible allergies. This information is available to the teacher or school principal in case of an emergency.
